

Inherited characteristics versus traits resulting from interactions with the environment:

Animal	Inherited	Environment
Cattle	Four legs	Pull a plow
Goat	Horns	Run up at sound of a feed bucket
Duck	Swim	Hold still and be pet by a person
Chicken	Pecking	Stand on a person's shoulder
Horse	Whinny	Carry a rider on their back
Donkey	Long ears	Pull a cart
Goose	Honk	Follow the farmer at feeding time
Pig	Digging	To roll over for a tummy rub
Rabbit	Eat carrots	To be petted and held
Turkey	Catch insects	Catch insects in a particular location
Sheep	Thick wool	Get shorn
