

<b>Species</b>	<b>Live Birth/Egg</b>	<b>Gestation/Incubation</b>	<b>Dependent</b>	<b>Adulthood</b>	<b>Life Expectancy</b>
CHICKEN	egg	21 days	8 weeks	6 mos to 1 year	5-12 yrs (3-5 is avg based in predation)
HORSE	live	11 months (340 days)	6-8 months (weaned)	5 -7 years	25-30 years
COW	live	9 months	6-8 months (weaned)	3 years	20 - 30 years (rare breeds only)
PIG	live	112-115 days	8 weeks (weaned)	1.5-2 years	8-10 years
SHEEP	live	5 months (approx. 150 days)	2 -4 months	1 year	9-14 years
TURKEY	egg	28 days	8 weeks	8 - 12 months	5-12 years
GOOSE	egg	28-34 days	10-12 weeks	1- 1.5 years	15-20 years
DUCK	egg	26-28 days	7 weeks	6 - 12 months	7-10 years
RABBIT	live	28-31 days	4-8 weeks	10 months	5-6 years
DONKEY	live	11 - 14 months (330-420 days)	6-8 months (weaned)	2.5-3 years	30-50 years
GOAT	live	5 months (approx. 150 days)	2-4 months (weaned)	12 months	15 years+
HUMAN	live	40 weeks (280 days)	18 years (weaned 0-3 yrs)	21 years	77-85 years

***Now... try graphing it! Start with a graph of the birds, comparing their incubation time. What else can you do?***
