

Name _____

Make a Venn Diagram: **Compare your home with the farm.**

What do the two have in common, and what is unique about each one?

In the left circle, list items (or activities) found in your house but not at the farm. On the right, list things found at the farm but not at your house. In the center, list items or activities that both places have in common, such as: milk. In the middle, focus on items or activities that help you and the animals meet basic needs for food, shelter, space, water, air and security.

Unique to your home
