

Conservation Priority Equine Breeds 2011

Critical: Fewer than 200 annual registrations in the United States and estimated global population less than 2,000.

Threatened: Fewer than 1,000 annual registrations in the United States and estimated global population less than 5,000.

Watch: Fewer than 2,500 annual registrations in the United States and estimated global population less than 10,000. Also included for all livestock are breeds that present genetic or numerical concerns or have a limited geographic distribution.

Recovering: Breeds that were once listed in another category and have exceeded Watch category numbers but are still in need of monitoring.

Study: Breeds that are of genetic interest but either lack definition or lack genetic or historical documentation.

	Critical	Threatened	Watch	Recovering	Study
Asses	Poitou	American Mammoth Jackstock		Miniature Donkey
